

7m - 13m Moog Truck Mounted Platform

UBM 11

Designed to clear wide footpaths and noise walls on bridges, this work platform delivers safe, efficient access for rehabilitation works, as well as inspections and investigations on bridges, wharves, and jetties. It accommodates up to four operators and allows access from one side of most two-lane bridges without the need for lane changes, helping reduce disruption on site. A generator, screw compressor, pressure washer, and water pods are included at no extra cost, making it fully equipped for demanding projects.

Machine Specs

Max Platform length under bridge	7m - 13 m
Max Platform length alongside bridge	9.5 m
Max lowering depth	8.4 m
Width of platform	1.2 m
Side walk clearance	4.3 m
Hand rail / Barrier max clearance	3.8 m
Operational footprint	2.5 m
Max load at end of telescopic platform	150 kg
Safe working load across platform	500 kg
Rotation of platform under bridge	180°degrees
Deployment side	Left only

Truck Specs

Traveling height (stowed)	3.5 m
Traveling width	2.5 m
Traveling length	11.7 m
Overall weight (approx)	26,000 kg

m = Metre
kg = Kilogram

Included Accessories:

Equipment installed on unit available for client usage.

- Generator 18KVA : Three-Phase
- Screw Compressor 100CFM
- Pressure Cleaner 3500psi
- Water Tank - Capacity to carry 1000L
