

2.5m - 4.2m Moog Truck Mounted Platform

UBM 3 & 10

Weighing under 12 tonnes, this compact platform offers exceptional versatility without fatigue management requirements. Operators can access the platform directly from the road surface and move from one side of the bridge to the other without leaving the platform, improving safety and efficiency. Ideal for timber bridges, jetties, large traffic management signs, noise walls, and variable message sign projects, it delivers fast setup and pack-up, with a generator included at no extra cost.

Machine Specs

Max Platform length under bridge	2.5m - 4.2 m
Max Platform length alongside bridge	4.2 m
Max lowering depth	4 m
Width of platform	1 m
Side walk clearance	2.2 m
Hand rail / Barrier max clearance	4 m
Operational footprint	2.3 m
Max load at end of telescopic platform	120 kg
Safe working load across platform	350 kg
Rotation of platform under bridge	180°degrees
Deployment side	Left / right and rear

Truck Specs

Traveling height (stowed)	3.5 m
Traveling width	2.3 m
Traveling length	8.5 m
Overall weight (approx)	10,400 kg

m = Metre
kg = Kilogram

Included Accessories:

Equipment installed on unit available for client usage.

- Generator 6KVA (silenced) : Single-Phase
