

# 4m - 7m Moog Truck Mounted Platform

## UBM 4

Weighing under 8 tonnes, this lightweight platform offers a practical access solution without fatigue management requirements. Designed for up to three operators, it's ideal for timber bridge maintenance, including greasing, bolt tightening, and termite treatments. With fast setup and pack-up, you can get to work quickly, and a generator is included at no extra cost.

### Machine Specs

|                                        |              |
|----------------------------------------|--------------|
| Max Platform length under bridge       | 4m - 7 m     |
| Max Platform length alongside bridge   | 4 m          |
| Max lowering depth                     | 5 m          |
| Width of platform                      | 1 m          |
| Side walk clearance                    | 1.3 m        |
| Hand rail / Barrier max clearance      | 2.4 m        |
| Operational footprint                  | 2.3 m        |
| Max load at end of telescopic platform | 200 kg       |
| Safe working load across platform      | 400 kg       |
| Rotation of platform under bridge      | 180° degrees |
| Deployment side                        | Left only    |

### Truck Specs

|                           |          |
|---------------------------|----------|
| Traveling height (stowed) | 3.5 m    |
| Traveling width           | 2.3 m    |
| Traveling length          | 7.4 m    |
| Overall weight (approx)   | 7,800 kg |

m = Metre  
kg = Kilogram

### Included Accessories:

- Equipment installed on unit available for client usage.
- Generator 6KVA
