

# 4m - 9m Moog Truck Mounted Platform

## UBM 6

Built for safe and efficient access beneath structures, this work platform accommodates up to three operators and is ideal for rehabilitation projects on bridges, wharves, and jetties, as well as inspections and investigations. With fast setup and pack-up, it helps maximise productivity on site. A generator, screw compressor, pressure washer, and water pods are all included at no extra cost, so you have everything you need to get the job done.

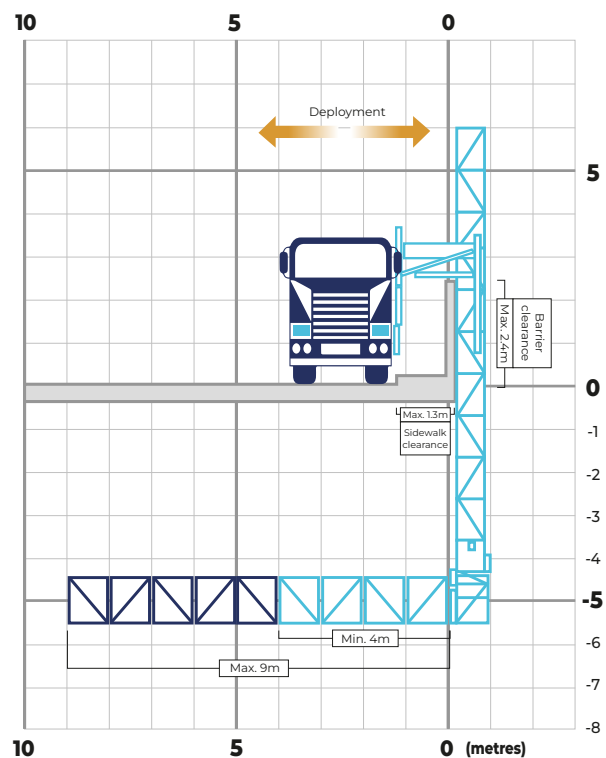

### Machine Specs

|                                        |                |
|----------------------------------------|----------------|
| Max Platform length under bridge       | 4m - 9 m       |
| Max Platform length alongside bridge   | 5 m            |
| Max lowering depth                     | 5.5 m          |
| Width of platform                      | 1 m            |
| Side walk clearance                    | 1.3 m          |
| Hand rail / Barrier max clearance      | 2.4 m          |
| Operational footprint                  | 2.5 m          |
| Max load at end of telescopic platform | 200 kg         |
| Safe working load across platform      | 400 kg         |
| Rotation of platform under bridge      | 180° degrees   |
| Deployment side                        | Left and right |

### Truck Specs

|                           |           |
|---------------------------|-----------|
| Traveling height (stowed) | 3.5 m     |
| Traveling width           | 2.5 m     |
| Traveling length          | 8.1 m     |
| Overall weight (approx)   | 14,000 kg |

m = Metre  
kg = Kilogram

### Included Accessories:

Equipment installed on unit available for client usage.

- 3-phase 18KVA Generator
- Screw Compressor 100CFM
- Electric Pressure Cleaner 3200psi
- Water Tank - Capacity to carry 2000L
